GARSON WOOD

SOLID CORE | INTERIOR DOORS

Since 2011, Garson Wood has specialized in the manufacturing and distribution of high quality interior doors across North America. We view a door as a fundamental element of any living space, contributing to privacy, security, and the overall character of a home. With over 15 years of industry experience, our focus remains on delivering dependable products that combine durability, consistency, and refined design.

To support customers across Canada, we have developed a strong and efficient distribution network. With over 500 styles and sizes in stock in Canada, we support both standard and specialized projects. We prioritize speed and efficiency in every order, delivering high quality products quickly and consistently while maintaining highly competitive pricing.

GARSON STANDARD

SUSTAINABLE SOURCING | FSC® CERTIFIED We are committed to environmental stewardship. Our timber is sourced exclusively from responsibly managed forests.

SAFE AIR QUALITY | CARB 2 COMPLIANT Our doors meet the strictest North American formaldehyde emission standards, ensuring non-toxic, healthy indoor air for families and children.

SUPERIOR ACOUSTIC PERFORMANCE | STC 40+ Experience industry-leading sound attenuation. Our high-density solid core construction provides a Sound Transmission Class (STC) rating of 40 or higher, effectively blocking unwanted noise for ultimate privacy.

ADVANCED STABILITY | SINGLE-SHEET TECHNOLOGY Our unique construction prevents cracking, warping, and shrinking, ensuring your investment remains flawless for decades.

PREMIUM FINISH | WATER-BASED UV PRIMER Our doors are factory-finished with a premium Water-Based UV Primer, specifically engineered to make painting effortless. This advanced surface ensures superior paint adhesion and a flawless, ultra-smooth foundation for a professional-grade topcoat every time.

FIRE SAFETY | 20-MINUTE FIRE RATING Select styles are available with a 20-minute fire rating, providing essential protection for garage-to-home and multi-residential entryways.

GARSON ADVANTAGE

EXTENSIVE IN-STOCK SIZES H:80”-108” | W:16”- 38” | T:1-3/8” & 1-3/4”
Full inventory from standard to 9ft (108”) doors. No custom-order delays ready for any ceiling height.

FAST DELIVERY | Next-Day Pick-up & Real-time Inventory
Eliminate project downtime. Our real-time system ensures immediate availability for next-day warehouse pickup.

Available Set
Passage Set: Two premium handles and a 53mm square backplate Latch Set: Two premium handles, 53mm square backplate, and a high-security latch (lock) with three keys.

HANDLE & LATCH

Due to the unique design of the Industrial Style Glass Door, featuring narrow 75mm wide stiles and rails, we have sourced a specialist range of hardware to be used in conjunction with the doors. Using alternative hardware could potentially cause significant damage and compromise the door’s functionality. Installation guidelines provided with each door must be adhered to.

PREMIUM FEATURES

Solid Wood Stile & Rail Construction

Crafted from solid pine for superior strength, durability, and a substaintial architectural feel

Slim-Stile Engineering

Precise 75mm (3”) stiles and rails deliver a refined, narrow-profile industrial look

Decorative Beading Detail

Slender applied beading enhances the industrial grid design with a high-end finish

Premium Water-Based UV Black Primer

Optimized surface promotes strong bonding for topcoat application, allowing for a ultra-smooth finish

4mm Tempered Glass Performance

Tempered glass with 10-15% glazing detail for enhanced durability and refined luxury appearance
